amo ergo sum - I love, therefore I am

Christoph Schmidberger aka *amo ergo sum* has found his everlasting love to music and nature amid the snowy white peaks of the alps where he was born and raised. Traveling through all different kinds of music genres from classic over metal to reggae the truth revealed that none of them quite fitted. As a multi-instrumentalist he set his goal to create his own unique

sound by combining all past and present influences. The result is a sound fueled by the pursuit of personal growth and the stunning life he has found amid the mystic mountains.

By producing, recording and mixing all songs by himself he is creating an uncompromisingly authentic and intimate sound that takes the listener by the hand to explore new worlds. When not in the studio he is to be found on the mountain tops experiencing nature. These breathtaking surroundings fuel his creativity and knowing that words cannot describe this bliss, his ambition is to let the music speak for itself and therefore reveal its own truth.

Amo ergo sum's debut EP "Vasudeva" is an acoustic journey illuminating the progress of finding his own musical identity and a dream come true. Inspired by the harsh peaks that surround him his debut EP is as versatile as nature itself. After a year of producing, recording and mixing his first self-made release, he is now looking forward to sharing his music and love with the world.
